Build happier, more productive teams

Ensure your learning center has all the scheduling tools you need.

Mathnasium organizations are finding success with a time tracking and scheduling solution from When I Work. Get your Mathnasium location up and running with same-day implementation and free onboarding support.

You'll be able to connect instantly with your team, easily see shifts that need to be covered, and allow employees to use their mobile devices to clock in and out—no matter where they work.

Join the 130+ locations that rely on When I Work for employee scheduling, time clock, and communication!

Manage your shift-based workplace with features you and your employees will love

Flexible self scheduling
Give your employees a voice in scheduling to reduce no-shows and increase accountability.

Labor sharing
Increase your shift coverage by sharing eligible and available employees across all of your locations.
Contactless mobile time clock
Keep your employees safe and save money—let them use their own devices to clock in and out.

Secure, anytime communication
Increase collaboration and keep your employees informed of changes through team messaging.

Onboarding time

2
days is usually all it takes to get your business up and running.

Onboarding fees

$0
is the cost to set up your account and train your team.

We chose When I Work because it offered the flexibility to schedule our seven locations separately. Onboarding new employees to When I Work takes only 5 minutes and staff also install the mobile apps and set up shift reminders to reduce absenteeism!
