

When I Work Stat Sheet

Description

When I Work is a market leader in shift-based workforce management software and delivers a powerful, employee-first experience that creates happier and more productive teams. Trusted by 200,000 workplaces worldwide, When I Work puts scheduling and collaboration at the center of workplace operations and brings empathy, agility, and consumer simplicity to organizations of all sizes. For more information, please visit wheniwork.com.

How we were founded

Chad was working at a grocery store bagging groceries and stocking shelves. He and his coworkers had to stop by the store on their days off to find out when their next shift was. We've all been there. But even in the 90's, Chad knew there had to be a better way. He developed the core of When I Work, but realized the world wasn't ready. Then, with the explosion of smartphones, Chad knew that time had come. Founded in 2010, When I Work has become the best scheduling and time tracking software for shift-based teams.

Since 2010 and basic scheduling, When I Work has come a long way. When you use When I Work, you get advanced scheduling, time tracking, team messaging, custom reporting, integrations, and API key access. Whatever scheduling challenge a business faces, When I Work can help, streamlining operations and helping boost productivity and morale along the way.
